

Asi Krinitz

Full Stack Developer | Angular & ASP.NET

✉ AsiKrinitz@gmail.com ☎ 052-7458800 📍 Haifa, Kiryat Haim

📅 1996 🌐 GitHub 🔗 LinkedIn 🔗 AsiWebsite

📋 Professional Summary

Production-oriented Full Stack Developer with 3+ years of experience building and maintaining enterprise web applications using **Angular**, **ASP.NET MVC**, **SQL Server**, and REST APIs. Experienced in developing scalable frontend and backend solutions, integrating third-party services, optimizing databases, and improving production system stability and performance. Hands-on developer with strong problem-solving skills and experience working across the full development lifecycle in fast-paced environments.

🔧 Tech Stack

Frontend: **Angular** (v5–18), **React**, HTML5, CSS3.

Backend: **ASP.NET MVC**, **Node.js** (Express), **NestJS** – REST APIs.

Databases: **SQL Server**, **MongoDB**.

Programming Languages: TypeScript, JavaScript (ES6+), C#.

Tools & DevOps: Git, GitHub, IIS (deployment), Postman (API testing), NVM, RDC.

🔗 Programming Languages – Additional Knowledge

- **Java** – Strong academic foundation (3 years) including OOP, data structures, algorithms, and object-oriented design.
- **Python** – Academic background with hands-on teaching experience, including core programming concepts, functions, control flow, and OOP fundamentals.

📁 Professional Experience

Go-Net

01/2023 – Present

Full Stack Developer

- Developed and maintained production **Angular** applications (v5–18) used by a large enterprise client, improving UI/UX and system stability.
- Developed and maintained **ASP.NET MVC** (.NET 4.8) controllers and REST APIs, handling business logic, authentication, and external integrations.
- Designed and optimized **SQL Server** databases, including stored procedures and query performance tuning.
- Integrated third-party services such as payment systems, OTP, SMS, and automated email notifications.
- Implemented Tranzila payment integrations (credit card, Bit app, token-based payments, installment plans, verify CC, refunds) and handled related production flows and errors.
- Integrated Histadrut APIs for real-time member data processing and automated validation across test and production environments.
- Implemented reliable server-side file upload and download.
- Refactored legacy frontend and backend code, reducing bugs and improving maintainability and performance.
- Deployed and maintained production systems via **IIS**, supported releases and version management (backups).

Projects

JobFinder – Full-stack job platform – Final college project

Watch a short video where I explain my project on my [website](#). 

Tech Stack:

Frontend: **Angular**

Backend: **Node.js** (Express)

Database: **MongoDB**

Auth & Security: Auth0 (Authentication & Authorization)

Version Control: Git, GitHub

- Developed and deployed a full-stack job platform supporting job posting, search, and candidate application workflows for employers and job seekers.
- Implemented authentication and authorization with Auth0, including secure login, role-based access, and protected routes in both Angular and Node.js APIs.
- Developed RESTful APIs with Node.js (Express) and a responsive Angular frontend featuring routing, forms validation, and dynamic UI flows.
- Managed deployment lifecycle including domain purchase, server setup, IIS deployment, and maintenance via Remote Desktop (RDC).
- Used Git and GitHub for source control, maintaining separate repositories for the Angular frontend and Node.js backend, with frequent commits for new features, fixes, and versions.

Personal Portfolio Website

Tech Stack:

React (Vite), NestJS, REST APIs, Axios, TypeScript(ES6+), HTML, CSS

- Developed a personal portfolio application using React with integrated backend communication via NestJS APIs.
- Implemented REST API interaction using Axios (GET, POST), enabling dynamic client-server data flow.
- Focused on clean UI, responsive layout, and clear presentation of technical experience.
- Deployed the project publicly and maintained it via GitHub.

Education & Certificates

Diploma in Software Engineer

2021 – 2023

ORT Kiryat Bialik College

- Graduated with honors.
- Selected for an excellence program for top students.

Certified Computer Technician

05/2025 – 11/2025

Collage of Management Haifa

- Certified Computer Technician.
- MCDST – Microsoft Certified Desktop Support Technician.

Military Service

Air Defense Warrior – IDF

03/2015 – 03/2018

Operated the Patriot air and missile defense system.
